king elementary

DECEMBER 2022

UPDATES

Upcoming: Winter Break

There is no school from Monday, December 26 to Monday, January 2. When classes resume, teachers and staff will explicitly teach and remind students of our class- and schoolwide expectations, as they do after all extended breaks. This helps ensure all students can be successful!

King Labs

You may have heard your student(s) talking about King Labs. King Labs are cross-grade-level groups that all King students and staff are a part of.

Every month, Labs are focused around a growth mindset, kindness, mindfulness, or other social emotional goal. Students work together to create projects, play games, and connect with one another. Not only have they been fun, but Lab have been a great way for our King community to build relationships!

HOME CONNECTIONS

Help spread the joy of the season by showing random acts of kindness! Here are some ideas to help you get started:

- Help a neighbor by shoveling their snow
- Leave a "thank you" note for delivery drivers
- Give someone a homemade gift/card
- Make cards for a local nursing home

PBIS EVENTS

Purple tickets are an ongoing support for all students
